Art Unit: 2627

1. Prosecution on the merits of this application is reopened on claims 1-6, 20, 21, 25, 33, 38-42, 59, 60, 62 and 63 are considered unpatentable for the reasons indicated below.

2. This application is objected to under 37 CFR 1.172(a) as the assignee has not established its ownership interest in the patent for which reissue is being requested. An assignee must establish its ownership interest in order to support the consent to a reissue application required by 37 CFR 1.172(a). The assignee's ownership interest is established by:

(a) filing in the reissue application evidence of a chain of title from the original owner to the assignee, or

(b) specifying in the record of the reissue application where such evidence is recorded in the Office (e.g., reel and frame number, etc.).

The submission with respect to (a) and (b) to establish ownership must be signed by a party authorized to act on behalf of the assignee. See MPEP § 1410.01.

An appropriate paper satisfying the requirements of 37 CFR 3.73 must be submitted in reply to this Office action.

Specifically, The Rule 3.73(b) document filed 1/29/04 showing ownership does not include a statement that the owner is the assignee of the entire right, title and interest of the application. *Note box was not checked off.*

3. The reissue oath/declaration filed with this application is defective (see 37 CFR 1.175 and MPEP § 1414) because of the following: The errors stated in the declaration filed 1/29/04 appear to all be directed to subject matter that has since been cancelled

Art Unit: 2627

during prosecution. Therefore, the declaration is defective in that it does not point out an error directed to the remaining claimed subject matter.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to David D. Davis whose telephone number is 571-272-7572. The examiner can normally be reached on Monday thru Friday between 7:30-4:00.
